

REVIEW-RECOMMENDATION

**of the educational and professional curricula of
«Audiovisual Art and Production»
by specialty 021 «Audiovisual Art and Production»
of the knowledge 02 «Culture and Art» of the second level
(Master`s degree) of higher education at
Kharkiv State Academy of Culture**

Educational and professional curricula of higher education, which is implemented in the Master`s degree specialty 021 «Audiovisual Art and Production» includes a set of documents developed at the Kharkiv State Academy of Culture needs-based of the labor market and relevant requirements.

Educational and professional program consists of 90 credits and includes all types of classroom and individual work of higher education applicants, as well as internship and time allotted to control the quality of mastering the educational and professional curriculum of higher education applicants.

The presented educational and professional programme regulates the goals, expected learning outcomes, content, conditions and technologies of the educational process implementation, evaluation of the quality of master training in the relevant specialty and contains general information, purpose and description of the educational programme, suitability of graduates for employment, further training, teaching assessment, and programme competences, programme learning outcomes, resource provision for programme implementation, academic mobility, list of components of educational and professional programme and their logical sequence, structure and logical scheme of educational programme, form of attestation of higher education applicants, matrix of compliance of programme competences with the components of educational programme.

The educational and professional curriculum provides a reasonable combination of classroom hours and individual work of higher education

applicants. The structure of the programme allows higher education applicants to obtain an individual set of knowledge by providing partial selective disciplines.

Developed educational and professional programme «Audiovisual Art and Production» of the branch of knowledge 021 «Culture and Art» of the second level (Master`s degree) of higher education can be used in the educational process for training of higher education applicants of full-time form of education.
