

REVIEW

for the educational and scientific program "Music Art" for training of PhD majoring in 025 "Musical Art" at Kharkiv State Academy of Culture

In 2017, the Faculty of Music launched the educational program "Music Art" based on the graduate school of Kharkiv State Academy of Culture. Many citizens of the People's Republic of China studied in the graduate school under the new educational program. The program is available to foreigners due to the large number of classes devoted to learning Ukrainian as a foreign language.

The educational and scientific program "Music Art" deepens fundamental knowledge of philosophy, culture study, as well as the methodology of theoretical and historical musicology, organization and methods of musicological research. Due to the acquisition of extensive practice of scientific and pedagogical work, graduates of educational and scientific programs have an opportunity to work in the field of art. Mastering the content of the educational program "Music Art" allows you to summarize knowledge gained at the "bachelor" and "master" educational levels. After completing the program at Kharkiv State Academy of Culture, there are all opportunities to defend a doctoral thesis.

The educational program "Music Art" qualitatively prepares doctoral candidates to teach in higher educational institutions. Highly qualified specialists are involved in teaching, including those who are well acquainted with the specifics of musical culture.

Technical base of the Kharkiv State Academy of Culture fully allows foreign graduate students to study remotely.

The educational and scientific program "Music Art" can be recommended for implementation in higher educational institutions for the training of doctors of philosophy majoring in 025 "Musical Art".
